35. The variations to the Award operate on and from 20 April 2020.

- [6] At the hearing of this matter, the Applicant referred to and relied on extensive written submissions it had filed together with affidavit evidence in support of the variations sought.
- [7] In summary, the Applicant's submissions addressed the basis upon which the variations were sought with respect to the substantive variations as follows:

The standardisation of casual loading

- (a) The variations sought included a variation to standardise casual loading for all employees to 25%. The Award provided for two different rates of casual loading depending on the stream of work the employee was engaged to perform. Those employees working in the clerical, administrative and operational managers and retail operations streams received a casual loading of 25% whilst those who worked in the health and fitness, OSHC and vacation care and support worker streams received a casual loading of 23%.
- (b) It was submitted that the standardisation of casual loading to 25% for all streams within the Award had the effect of removing anomalies from within the Award. Further it was submitted that the purpose of such a variation was to maintain a fair standard in relation to internal comparisons across streams, to simplify the Award, and to maintain fair external comparisons to the prevailing casual rates for employees performing similar work under federal awards.

Broken shift allowance

- (c) The Award provided that all employees who work broken shifts be paid a broken shift allowance except for casual employees of OSHCs. It was submitted that the operation of the Award (by not providing a broken shift allowance to casual employees of OSHC who work broken shifts) was inequitable and did not provide fair standards for casual OSHC employees.
- (d) The application also seeks to align the dollar amount of broken shift allowances with the federal *Children's Services Award*. It was submitted that this variation would allow for consistency and would bring the broken shift allowance in line with the relevant federal comparative standard.

Junior rates

- (e) The Applicant seeks variations to the Award on the basis that the Award provides for two different tables of junior awards and it also submits that some of the junior rates are outdated. The application seeks to standardise junior

rates and to vary the benchmark classification to which junior rates percentages are applied.

- (f) The application seeks to vary the benchmark rate to be the relevant adult rate applicable to the work the employee is performing. The application also seeks to vary the junior percentages in the Award to align with those contained in the *Children's Services Award* and, also as consistent with the *Children's Services Award*, to prescribe adult rates to all employees at Level 3 (Certificate 3) and above.
- (g) The Applicant submits that varying the junior rates in the Award, in the manner sought, will assist to provide fair and relevant standards and minimum wages to young employees. It also submits that having one table of junior rates will simplify the Award.

Responsible person's allowance and educational leaders

- (h) The Applicant submitted that pursuant to the *Education and Care Services National Regulations* each OSHC is required to designate a "responsible person"⁴ and an "educational leader".⁵ The application seeks to broaden the existing allowance so it can cover either, or both, the "responsible person" and the "educational leader". The Applicant submits that that the payment of the allowance is intended to cover one or both roles and it is not intended that it be paid twice for the same hours worked, to a person performing both roles at the same time.

Classification structure

Coordinators/Directors

- (i) The application seeks to include additional levels of classifications for coordinators/directors of larger services.
- (j) The classification levels that are sought are at Level 3. It was submitted that the additional levels are necessary to account for the growth in larger services and the increasing complexity of the role in larger services. The levels are derived from projecting the Directors rates from the *Children's Services Award* to what rates they would have been as at September 2019. The application seeks to extend the table of Directors rates for OSHC by adopting the rates that were applicable to long day care Directors under the *Children's Services Award*.

⁴ Defined in Reg 150.

⁵ Defined in Reg 118.

Manager

- (k) The Applicant submitted that the evolution of OSHC sector required skilled managers and that the Award does not adequately cater for employees at such a level. As a result, it was submitted, the industry was paying above the Award in order to attract and retain staff at a managerial level.

Level 4 Diploma qualified staff

- (l) The Applicant further submitted that the Award did not adequately provide for Diploma qualified staff, who are not appointed as coordinators or directors. It was submitted that there are positions emerging within OSHCs which require Diplomas and it is expected that this trend will continue to grow into the future.
- (m) The application seeks to include a Level 4 classification with a rate based upon a projection of rates formally applicable to Diploma qualified staff under the *Children's Services Award*.

Level 3.4 rate

- (n) Whilst there is an existing Level 3.4 and pay rate in the Award, the application seeks to amend the Level 3.4 pay rate so that it is set at the midpoint between Level 3.3 and the proposed Level 4. The proposed new rate for Level 3.4 is derived from projecting the midpoint between an equivalent Level 3.3 rate and a Diploma rate in the *Children's Services Award*.

The Respondent's position

- [8] The Respondent consents to the variations to the Award sought by the Applicant and, further, consented to the draft orders referred to at paragraph [5] herein.
- [9] In its submissions, the Respondent relevantly stated the basis of its consent was, in summary, as follows:
 - (a) the evidence before the commission satisfies the requirements of the IR Act for the commission to order the variations to be made; and
 - (b) the proposed variations are supported by the Respondent and are necessary to support individual Parents and Citizens Associations to make day to day decisions regarding employment conditions and entitlements.

- [10] At the hearing, Ms Laird, the representative for the Respondent, submitted that it was important for the Respondent to have an award which accurately reflected the changes which have occurred in the industry.
- [11] Representatives for both parties further confirmed at the hearing that there had been extensive consultation within the industry with respect to the variations sought and that the changes to the Award were generally supported.

Consideration

- [12] Chapter 3 of the IR Act provides for the exercise of powers with respect to modern awards. Section 147 of the IR Act falls within Chapter 3. Section 147 of the IR Act provides that the Commission may make or vary a modern award on its own initiative or by application to provide for "fair and just employment conditions".
- [13] Section 141 of the IR Act requires, that in exercising its powers pursuant to Chapter 3, that the Commission must ensure a modern award:
- (a) provides for fair and just wages and employment conditions that are at least as favourable as the Queensland Employment Standards;⁶ and
 - (b) generally reflects the prevailing employment conditions of employees covered, or to be covered, by the award.⁷
- [14] I am satisfied that the variations sought by the Applicant and consented to by the Respondent would ensure that the Award continues to provide "fair and just employment conditions" and ensures that the Award generally reflects the prevailing employment conditions of employees covered by the Award. In this respect, I have had regard to the submissions made by the parties that several of the variations sought will bring the Award into line and reflect changes that have been made within the industry.
- [15] Whilst noting the diversity of the variations sought, I am satisfied that the purpose of the amendments includes to simplify the Award, to ensure consistency and fairness of entitlements to employees covered by the Award and to properly reflect changes to the type of work and the requirements to work in the industry.
- [16] I have also had regard to the consent provided by the Respondent who views the amendments as necessary and that it will assist Parents and Citizens Associations in their day-to-day operations.

⁶ *Industrial Relations Act 2016* (Qld) s 141(1)(a).

⁷ *Ibid* s 141(1)(b).

[17] On 18 December 2019, I issued orders in the terms of the consent orders provided by the parties on 18 December 2019. Following this, several clerical errors were identified in those orders, and pursuant to r 95 of the *Industrial Relations (Tribunals) Rules 2011* (Qld), I have corrected those errors with the consent of the parties.

[18] I grant the application and make the necessary orders to vary the Award.
